Getting Help

This help file is quite extensive, and is presented in the order that should help a new user set up their account and begin using it.

If you need an account send alliance [TAG], "Alliance Name" and a password (not game password) to.

- Email: trumpoot@gmail.com
- MCOC Chat: Trumpoot
- LINE ID: subcommander

If you have further questions, or want to suggest a bug/feature, feel free to join the LINE chat.

[HERE](#) ← click here on your mobile to go directly to the chat.

Trumpoot's Sweet Tool Suite

Logging In

To Log in, aim your browser at <http://www.trumpoot.com/tsts/index.php> ... you need three pieces of information:

- Alliance TAG,
- User Name
- Password.

You can also log in directly using URL parameters using the following format:

<http://www.trumpoot.com/tsts/index.php?atag=TEST&uname=admin&pwd=pass>

Just replace the blue words with you login information.

WARNING: if you received your account information in the LINE app, you will need to copy the link and paste it into your browser URL bar. The link will not work if you click it inside of the LINE app.

The screenshot shows the login page for Sweet Tool Suite. At the top, there is a header with the logo and the text "Sweet Tool Suite*" and "Not Logged In". Below the header, there is a navigation bar with "GUEST" and "Log in to Access Tool". The main content area is a vertical stack of input fields and buttons. The first field is labeled "GUEST". The second field is labeled "ALLIANCE TAG" and contains the text "ORDER". The third field is labeled "USER NAME" and contains the text "admin". The fourth field is labeled "PASSWORD" and contains three dots. At the bottom, there is a large button labeled "LOGIN".

Tool Suite BETA - LINE chat.

I have a few changes coming soon, and have created a LINE chat for comments/requests. the link is [HERE](#).

2019-02-25 19:22:24

- Added direct login capability by embedding the login credentials into the URL link. (See the help file for the format).
- Modified the text entry for renaming rosters/member names to improve mobile-browsing compatibility

2019-02-23 17:27:07

Welcome to Trumpoot's Sweet Tool Suite for Marvel Contest of Champions.

This platform is a complete re-write of the previous AWD Diversity Tool, and should be a little snappier to use. It also provides some new functionality. (To all of you expert programmers...don't be too hard on me, I'm still stuck in the 90s).

In any case, this tool is provided free of charge, so hopefully you will get at least your money's worth. Be sure and click the  button above to read up on the help file.

Current and Upcoming features include:

- Multiple Rosters...you can have different BG assignments for AQ, AW, Weekend AW, etc. etc.
- AW Defense Tool...manage defenders for each BG to help track diversity.
- AW Attack Tool...manage AW Paths. (Coming Soon)
- AQ Attack Tool...manage AQ Paths. (Coming Soon)
- Donations Manager...debit and credit player accounts to track gold/loyalty/bc. (Coming Soon)

* If you have suggestions, requests, email me at trumpoot@gmail.com

Or email me at the same address if you would like a free account to use the tool.

Here's an example of the info I need:

- ALLIANCE TAG: IMMIRT
- ALLIANCE NAME: The Immortals
- USER NAME: Trumpoot
- PASSWORD: VenomShortPath

* If you had an account for the AWDDef tool, let me know, and I'll copy your info over.

If you wanna support my hobby, in game gifts are appreciated, just look me up...

Trumpoot

2019-02-23 09:53:21

   Added New Champions: Diablo, Havok and Mister Sinister!

Roster List Tool

- When you log in, you will be on the Roster List Tool.
- You can also return here by clicking the button shown by arrow-1.
- The tool allows you to have 30 members entered into your alliance.
- These members are then divided into 3 BG for different events.
- You have 10 different rosters that will let you group your members in upto 10 different groupings.
- This page lets you choose the 'ACTIVE' roster that will be edited by all other other tools.
- When you click on a roster to select it, the name of the roster will be displayed in the field shown by arrow-4.
- To rename these rosters, click on each roster (as shown by arrow-2)
- Then click the [A] button to rename it (as shown by arrow-3).
- Click the UNDO button to undo changes  1
- Click the SAVE button to save your changes to the server. 
 - (changes are not live until they are saved).

Trumboot's Sweet Tool Suite

Roster BG Tool

- This tool allows you to assign players to different BG in the current roster, and rename the players
- Click on the button in the menu bar to access this tool. (as shown by arrow-1)
- When you click on a player, (arrow-2) they are highlighted yellow. At this point there are three actions you can take. (notice the message pointed to by arrow-3)
 - Click them again to unselect them.
 - Click on a different player to swap the two players.
 - Click on the [A] button to rename the player.
- Use this tool to rename players and to assign players to different BG in each roster.
- Remember to save before moving to the next tool.

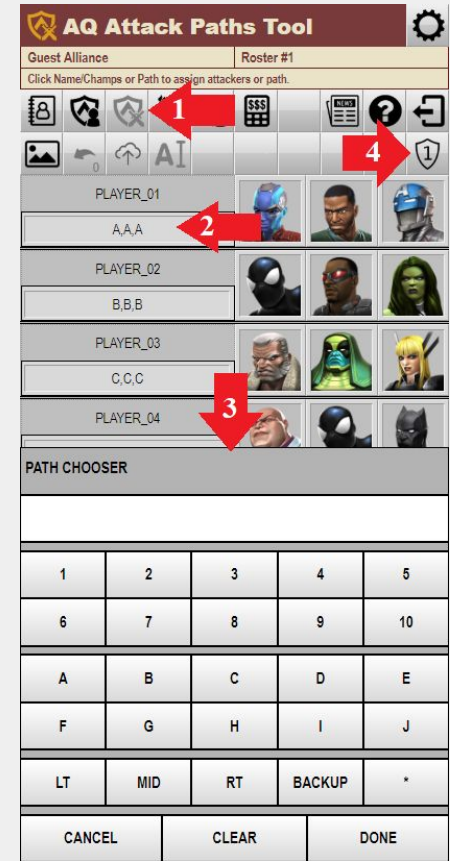

Trumboot's Sweet Tool Suite

AQ Attack Paths Tool (Paths)

- This tool allows you to assign attack paths for each player in a BG for the current roster.
- Click the third menu button to access this tool. (shown by arrow-1)
- Click on the path BELOW the player name (arrow-2) to open the "PATH CHOOSER" window.
- In this window, (arrow-3) click on different numbers or letters to build up the path assignment that you want.
- CANCEL if you want to stop without making any changes.
- CLEAR to clear the path name and start over.
- DONE to assign the current path to the selected player.
- Make all path changes that you want to this BG, and then click the button shown by arrow-4 to show the other BGs.
- Remember to save before opening up a different tool.

Trumpoot's Sweet Tool Suite

AQ Attack Paths Tool (Attackers)

- Click the third menu button to access this tool (arrow-1)
- Click ON the player name (arrow-2) or an attacker (arrow-3) to open the attacker selection window. (shown in bottom half of screen).
- In the attacker selection window, the champ that is highlighted by a red square (shown by arrow-4) is the next one that will be replaced.
- Click on the champs in the lower portion of the screen to select a new attacker. (arrow-5).
- If you clicked on an attacker (arrow-3) to open this selection screen, it will close after replacing a single champ.
- If you click on the player name (arrow-2), you can stay in the attacker selection screen, and make all your selections, then click on the check mark (arrow-6) to close the selection window.
- Select attackers for all the players, then change BG by clicking the button shown by arrow-7.
- Remember to save before switching to another tool.

Trumboot's Sweet Tool Suite

AW Attack Paths Tool

- This tool allows you to assign the attackers for AW.
- Click the fourth menu button to access this tool. (shown by arrow-1)
- This tool works exactly like the AQ Attack Paths Tool described above.

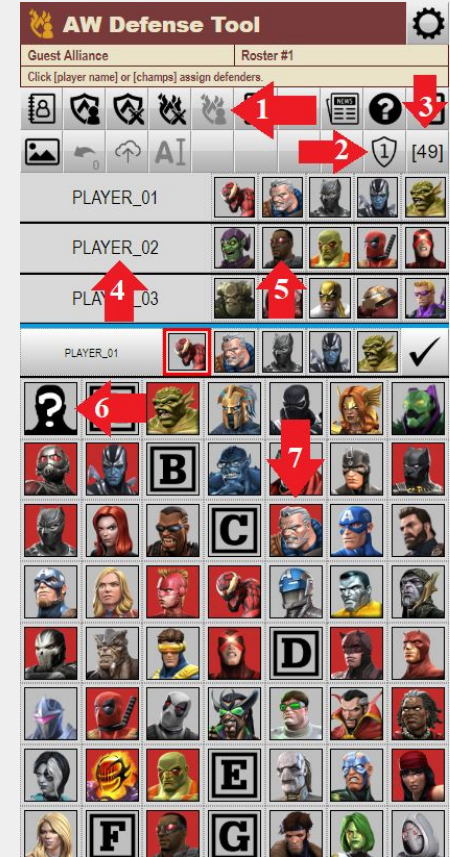

Trumboot's Sweet Tool Suite

AW Defense Tool

- This tool can be accessed by clicking the button shown by arrow-1.
- This tool allows you to assign defenders to different players, and calculate diversity.
- Change BG by clicking the button shown by arrow-2.
- Diversity is shown by arrow-3.
- Just like assigning attackers, you can click on the player name (arrow-4) to assign all defenders, or a champ face (arrow-5) to swap out an individual defender.
- To delete a champ, click on the champ with no face (arrow-6)
- The defenders with a red background have already been chosen and will not count toward diversity if selected a second time.
- *NOTE: diversity is calculated by BG, not across the entire 30 players. This is the same as KABAM math.*

Trumpoot's Sweet Tool Suite

Donations Calculator Tool

- This tool can be accessed by clicking the button shown by arrow-1.
- This tool allows you to calculate donations for AQ.
- For each Day, you can assign the map that you want to run in each BG. Click on the Day/BG to highlight which map you want to assign (arrow-2)
- Then, click on the map number (arrow-3).
- The tool will copy the choice down to the other days for quicker editing. If you want different maps each day, start with day 1 and go to the following days.
- The summary (arrow 4) shows the total cost, the donations for each member, winnings for 100% completion, and net cost/earning for each player.
- The options (arrow-5) let you...
 - Assign roundings to each cost (gold/BC/Loyalty)
 - Divide the total cost between up-to 30 players.
 - Choose 100% or 87% donations (87% lets you break even if you donate every 7 days, and AQ runs every 8 days)

Trumboot's Sweet Tool Suite

Image Export Tool

- This tool can be accessed by clicking the button shown by arrow-1.
- This tool allows you to export various different types of images
 - Roster Images
 - Alliance Quest
 - Attack Paths
 - Attack Paths with Attackers
 - Donations
 - Alliance War
 - Attack Paths
 - Attack Paths with Attackers
 - Defenders & Diversity
 - Available Defenders (what defenders are available)

The screenshot shows the 'Roster List Tool' interface. At the top, there's a header with the tool name and a gear icon. Below that, there are input fields for 'Alliance Name' and 'Roster #1'. A note says 'Click Select ACTIVE Roster. ('A' to RENAME)'. A toolbar contains various icons, including a red arrow pointing to an image icon labeled '1'. Below the toolbar is the 'IMAGE EXPORT MENU' with a close button 'X'. The menu is divided into three sections: 'Roster Image Menu', 'Alliance Quest Image Menu', and 'Alliance War Image Menu'. Each section has a table of options.

Roster Image Menu				
Roster Images	BG1	BG2	BG3	ALL

Alliance Quest Image Menu				
AQ Attack Paths	BG1	BG2	BG3	ALL
AQ Paths & Teams	BG1	BG2	BG3	ALL
Member Donations	SIMPLE		DETAILED	

Alliance War Image Menu				
AW Attack Paths	BG1	BG2	BG3	ALL
AW Paths & Teams	BG1	BG2	BG3	ALL
AW Defenders	BG1	BG2	BG3	ALL
Available Defenders	BG1	BG2	BG3	ALL

Trumpoot's Sweet Tool Suite

Global Settings Menu

- Clicking on the “gear” button shown by arrow-1, Global Settings Menu.
- **Champ Sel Cols:** determines how many columns to show the defenders in. (makes champ selection better for portrait/landscape display).
- **Saturation:** Colors were a bit harsh on my mobile device. This option desaturates the champ images.
- **Filters:** This option determines which champs are viewable in champ selection screen.
 - Filter by class
 - Filter to show/hide dupes.
 - Filter to show/hide the alphabet blocks.
- **Name/Champ selection mode.**
 - The default behavior is that when you click the player name, you select ALL their defenders or attackers before closing the champ selection screen. And when you click a champ face, you only select that attacker/defender.
 - This option changes that behavior.

The screenshot shows the 'Roster List Tool' interface with a 'GLOBAL SETTINGS MENU' overlay. The menu is divided into three sections: 'CHAMP SELECT OPTIONS', 'FILTERS', and 'IMAGE EXPORT OPTIONS'. The 'CHAMP SELECT OPTIONS' section includes sliders for 'CHAMP SEL COLS: 7' and 'SATURATION: 85%'. The 'FILTERS' section features a row of icons for DNA, a fist, a flask, a shield, a planet, a gear, and a shield with a cross, with 'DUPE' and 'ABC' filters below. The 'IMAGE EXPORT OPTIONS' section includes a slider for 'IMG SIZE: 100%'. A red arrow labeled '1' points to a gear icon in the top right corner of the tool window.

Trumboot's Sweet Tool Suite

Global Settings Menu (Cont)

- **2 or 3 BG war.**
 - The default is 3 BG of 10 players each.
 - If you select 2 BG for war, it will display 2 BG of 15 players each.
 - The first BG will be BG1 + players 1-5 of BG3.
 - The second BG will be BG2 + players 6-10 or BG3.
 - This will allow you to calculate diversity for 2 BG with 15 players each.
 - Then, it doesn't matter which of the 15 players join each BG, you will still get full diversity.
- **Image Size:** choose image size for images created.

The screenshot shows the 'Roster List Tool' interface with a 'GLOBAL SETTINGS MENU' overlay. The menu is divided into several sections:

- CHAMP SELECT OPTIONS:** Includes a slider for 'CHAMP SEL COLS: 7' and a slider for 'SATURATION: 85%'.
- FILTERS:** A row of icons for DNA, a fist, a flask, a gem, a planet, a gear, and a shield. Below this are two buttons labeled 'DUPE' and 'ABC'.
- NAME = MULTIPLE, CHAMP = SINGLE defender.** A text label with a corresponding slider.
- 3 BG for War. 10 in each BG.** A text label with a corresponding slider.
- IMAGE EXPORT OPTIONS:** Includes a slider for 'IMG SIZE: 100%'.
